Product Number		Fixture Type	

Bendable illumination in every direction with shadowless uniform 360° light output. OmniBend 360° has a unique light distribution structure that allows for flexibility to form almost any shape. Connect tube for end to end looped designs, or create organic linear shapes.

- High luminous efficiency
- LM80 test certification and IP65 protection level
- Skin-friendly surface treatment that's has a soft silica comfortable touch
- Environmental characteristics include salt solution resistance, acid and alkali corrosion resistance, flame retardant resistance, and UV resistance
- Standard 1m length. Custom lengths available upon request

APPLICATIONS

- Branding
- Ceiling Hung
- Decorative or Artistic
- Shelves / Cabinets
- Cove Lighting
- Displays

COLOUR TEMPERATURE (K)

OVERVIEW

MAXIMUM BEND PROXIMITY

TUBE DIAMETER

PHOTOMETRIC DIAGRAM

Average Beam Angle (50%): 187.3 Deg

Note: The above data is based on 24V monochrome 4000K color temperature.

ROHS

360° Bendable Neon Tube Light

Part# 234025

SPECIFICATIONS

PHYSICAL

Part Number	234025
Beam Angle	360° (All directional bend)
CRI	>90
Color Temperature	2300K - 2700K • 3000K • 4000K • CCT 2300K-4000K • RGB
Lumens (LM/m)	750 (225/ft)
Operating Temperature	25°C - 55°C
Environment	IP65 (Outdoor)
Diode Pitch	25mm (Standard)
Cutable Length	2" (50.8mm)
Standard Lengths	1m (3.28ft) • 2.5m (8.2ft) • 5m (16.4ft) • Custom length available on request.

ELECTRICAL

Input Voltage	24V DC
Power Consumption	Minimum 14.4W/m (4.39W/ft) • Maximum 16W/m (4.88W/ft)
Connector	Waterproof cable with plug & play connector
Certification	UL Listed (E346146)

Note:

- The above parameters are tested based on 1m (3.28ft) standard products;
- The luminous flux is allowed to have an error range of $\pm 10\%$;
- Please use an isolated power supply to drive the LED light bar, and the ripple of the constant voltage source is less than 5%. Do not use resistance-capacitance step-down, non-isolated power supplies to drive the LED light bar.
- In actual applications, the power supply should reserve 20% of the margin (it is recommended to use only 80% of the power) to ensure sufficient voltage to drive the product.
- Please operate carefully, do not touch the AC power terminal when the power is on to prevent electric shock.
- Pay attention to the positive and negative poles of the power cord, and do not connect it wrongly. Whether the voltage of the power supply and the product are the same, so as to avoid damage to the product.
- During the installation process, please avoid scratching, twisting and irregular bending of the product, otherwise it may cause irreparable damage to the product.
- In order to ensure the life and reliability of the light strip, please do not bend it in an arc with a radius of 120mm or less. A too small bending radius will damage the product itself.
- If the actual application length exceeds the specified use length, it will cause the lamp belt to overload and heat, and the brightness is uneven.
- In order to prevent your eyes from being hurt, try to avoid staring at the light-emitting surface of the light bar for a long time.
- Non-professionals are prohibited from installing, disassembling and repairing the product.
- It is strictly forbidden to use any acidic or alkaline adhesives to fix products (including but not limited to glass glue, etc.).
- Different IP grades are used in different scenarios, and IP65 is not suitable for immersed environments.
- Products of different sizes and specifications under the same color temperature value due to structural differences, the final color of the product is slightly deviated, and it needs to be confirmed before use.
- Light strips that can be cut arbitrarily need to be glued or plugged after cutting. Colored light and color temperature are strictly prohibited to be cut to avoid damage to the lamp due to cutting.
- Please use professional cutting tools when cutting.

MOUNTING OPTIONS

IP65 SILICONE PLUG - TOP OUTLET

IP65 SILICONE PLUG - SIDE OUTLET

CANNONT wrap objects less than 120mm.

NO STRETCHING

NO STEPPING
